WITH the advent of another Cotton Season, we renew to our friends and patrons the offer of our service in the storage and sale of their cotton. We have demonstrated the fact by the experience of past seasons, and particularly of the last, that Atlanta is one of the best Interior Cotton Markets of the South. This is due chiefly to its situation being on the direct route from the producing districts to the large seaport markets, and having the advantage of three routes to New York, via Savannah, Charleston and Norfolk, all of which are freely and satisfactorily used. The importance of Atlanta as a cotton market was, during the last season, acknowledged by the New York buyers, many of whom made extensive purchases, which with the local competition enabled us to realize the most satisfactory prices; relatively higher in most instances than could have been obtained by our consignors, by shipments to more distant points.
The members of our firm are all men of large experience in cotton, and well known in the community. Our Warehouse cannot be surpassed, being of large dimensions, completely sheltered, and fire-proof. Every money facility usual to such cases we are prepared to furnish.

THIS long and well known Hotel, with its unequaled system, still presents itself to the traveling public.
The House was opened on the 1st of January, 1856, and took at once a prominent position among the "first class" Hotels of the country. It has never been closed since, but it has been steadily increasing in prosperity, till it acknowledges no successful rival in the business in the State.
Recent improvements and refurnishing of the House, which is still in the hands of the Proprietors, have left nothing to be desired by those who love their ease and enjoy the comforts and luxuries of life. The Hotel is admirably situated for the convenience of the travelling public, being situated opposite the Passenger Depot, and but a few steps from the same. It has a retinue of well trained servants in every department, and the Proprietors will spare no pains or expense to sustain the established reputation of the Hotel. Special attention paid to the wants of lady guests, who may sojourn at the House, and none shall go away dissatisfied, if an earnest endeavor to please will secure a liberal share of the public patronage. je16-dtf

SPECIAL ATTENTION GIVEN TO COTTON.
Liberal advances made on Consigments to us for sale, or Shipment to our friends in Baltimore, Philadelphia, New York or Liverpool.
Wishing to aid our Planter friends in their efforts to secure for themselves the full benefit of their Cotton Crops, we have determined to make advances on Cotton consigned to us on the following easy terms:
On Cotton, for sale at discretion, advance seventy-five (75) per cent. of its market value, charging interest on the advance until the Cotton is sold at the rate of seven (7) per cent. per annum
On Cotton, to be held Thirty Days, advance fifty (50) per cent. of market value, charging the regular commission for advancing, 2½ per cent., and interest on the advance at the rate of seven (7) per cent. per annum.
On Cotton, to be held Sixty Days, fifty (50) per cent. of its market value, charging commission for advancing, 2½ per cent., and interest on the advance at the rate of one (1) per cent. per month.
In all cases the advance will be based upon the market value of the Cotton on the day it reaches us. MERCER & ANDERSON.

EVENING EDITION.

ATLANTA, GEORGIA, NOVEMBER 6.

DON'T STEAL ME, for I am private property, bought and paid for by a subscriber, one who sustains the press and wants to read me.

DON'T BORROW ME, for my owner don't like it, and, besides, the machine will turn you out a copy just like me for three cents and a half, and you ought to sustain the press. Go and subscribe, and keep your conscience easy.

The Intelligencer and Our "Slights."

By request of Col. R. F. MADDOX, we copy from the *Constitution* of yesterday, the foregoing notice, designed as we have been informed by that gentleman, to make its appearance in the columns of the INTELLIGENCER simultaneously with its appearance in the *Constitution*, no copy of which, however, for some cause, unexplained, was handed in to us. We refer to this omission only for the reason that it is not the first, nor the second time, that this paper has received similar treatment, and were it not that we are above allowing such slights to influence our action where the interests of our State, County, or City, are concerned, the notice would pass by unheeded by us, as we are confident it would be by many a good Democrat and conservative citizen who looks to the columns of the INTELLIGENCER for information connected with Democratic party movements, especially in this city.

The *Intelligencer* of this morning, commenting on the action of the Central Executive Committee of this city, utters the foregoing paragraph.

We are sorry our neighbor is piqued, for we have on no occasion intentionally neglected or slighted its claims to the courtesy of the Democratic party.

The action of the Committee was handed to our Foreman after supper Wednesday evening. We knew that it ought to go into the *Intelligencer*, and desired that it should, but at the time of handing it in we were in a hurry to meet a Club, and did not think of it, and from that till a late hour we were engaged in party affairs. Returning to our office aboat midnight, we remembered the matter, but found that the *Intelligencer* had finised its night's work and closed up. Yesterday we corrected the heading of the Committee's action and sent it over to that office. This explains one of the "slights" complained of.

We remember on two or three former occasions we were guilty of similar "slights." Occasions when we had been out at work till late at night with the boys for the party, while our neighbor was in his bed asleep. Nine times out of ten we, or some one from our office, happened to be at the place where working Democrats were needed, and where business was transacted that had to be published, and just nine times out of ten the editorial corps of the *Intelligencer* were at other places—places where but little good could be accomplished for the party or the cause. Most frequently meetings have been held at night, and by being always present we have always been able to get possession of proceedings in time for TH CONSTITUTION, but *too late* for our Rip Van Winkle neighbor.

If, when we have been overworked, wearied, worn, and sleepy, we have seemingly neglected, forgotten, or slighted the *Intelligencer*, we hope to be forgiven; and though, to our mind, that paper sadly neglected, forgot and slighted the Democracy during the late furious contest, and though it now pitches in with "Betsy and I killed the bear," we freely forgive it for its sins of *omission* and commission, and propose to square accounts for the past.

Letter from John Quincy Adams.

DALTON, GA., Nov. 5, 1868.

Mr. Editor: To-day I got the enclosed letter, which, by suggestion of many, I send you to publish. It is the response of Hon. John Quincy Adams to our invitation to address our great Democratic Mass Meeting, of 15th October.

Bearing signal proof to the cruel falsity of the charge of Southern belligerence, upon which the Northern mind was led astray, and the Democratic party alone defeated, the South should be deeply grateful to him for this virdication of her purposes.

If our own imprudence has helped the slander by which the real party of the Constitution has failed to get control of the government, then let us remedy our mistake. And to do this Mr. Adams' kindly given and sensible advice is most admirable.

Let us not despond from defeat. Let us hope better things from General Grant than an execution of Radical policy.—This is but a temporary repulse. The final battle for the Constitution is yet to be fought; let us believe Georgia has gloriously stood firm amid the crash. Her trumpet voice has proclaimed for the right with noble emphasis. Let us keep in her sacred temples the vestal fires of patriotism burning brightly, from which to relume the quenched flames of other less fortunate altars.

J. W. AVERY.

QUINCY, October 26, 1868.

Messrs. J. W. Avery, L. N. Trammell, J. A. W. Johnson, and others, Dalton, Ga.—

GENTLEMEN: I regret very much that I was unexpectedly called away from South Carolina before your kind letter of invitation reached me, and it followed me all the way to Massachusetts. I thank you heartily for the spirit which prompted it, the same cordial readines to greet with warmth any indication however slight of returning kindness which met me at every turn at the South. I found the traducers of your people deceivers of deceivers. They say you are plotting war. I found you praying for peace. They say you would again enslave the black. I thought your utmost aspiration was to escape political subjection to the freedmen. We were told that your war leaders meant to rule us. It seemed to me that they would be happy to avoid a too rough riding by "carpet-baggers." They tell us you are intolerant and proscriptive; but I saw Democrats and Republicans, black and white, peaceably debating from the same platform.

I am persuaded that the Democratic party, as a mass at the South, accept honestly and in good faith the results of the war. From my observation, I am satisfied that they ask now only to be allowed to do their duty as good citizens in the Union, and that they long for a renewal of fraternal relations under the Constitution. I urged my views of the policy most likely to hasten such a consummation without reserve at Columbia. I should have reiterated those sentiments at Dalton if I had been privileged to speak there.

I make no secret of my hope that my Southern friends will not hastily commit themselves to a needless hostility to General Grant's administration if he is elected. It can do you no good—it *may* postpone your emancipation for years.

I urged in South Carolina, and I should have pressed in Georgia, a liberal policy as to suffrage, a very cautious practice in speech, kindness to strangers, the most strenuous suppression of disorder and violence, a sparing use of politics, and fair and friendly dealings with the freedmen. Above all things, set yourselves stubbornly to obliterate the ravages of the war, and energetically to revive your blighted prosperity, to rebuild your shattered fortunes and repair your ruined trade.

I need not remind you how essential to you concession and compromise have become. I need not warn you that everything that can be yielded with safety and honor should not be insisted on at the price of subjection and permanent helplessness. You must take long views, cultivate coolness, caution and forecast, calculate possible contingencies and study moderation and self restraint as the efficient means of restoration. Struggling and writhing, vociferating and denouncing but strain your bonds the closer. Bide your time like men, use your opportunities like statesmen, hold fast to the Constitution like patriots, and keep up a cheerful courage like Christians, and

> You shall see the stubborn thistle bursting
> Into glossy purple which outredden
> All voluptuous garden roses.

Gentlemen, if you are wise and patient, I believe your night already far spent. If you can be calm and self-controlled, I am well assured that though the dark clouds hang about you now, "there will be light at eventide."

Very sincerely, your friend,
JOHN Q. ADAMS.

THE ELECTION YESTERDAY.

A Terrible Riot.

Three Negroes Killed—One Policeman Mortally Wounded.

Large Number Slightly Wounded.

[From the Savannah Republican, Nov. 4.]

OPENING OF THE POLLS.

The polls were opened at six o'clock in the morning at the Court House, with three ballot boxes and three sets of officers and clerks, and every arrangement was made to afford sufficient facilities for voting to enable every legal voter in the city to exercise the elective franchise.

BLOCKING UP THE ENTRANCE TO THE POLLS.

Some time after the polls were opened a large body of colored men, a great proportion of whom were said to be from the country, and who had no right to vote in the city under the rules prescribed by the Ordinary, marched up to the main entrance on the west side of the Court House and blocked up the passage so that it was almost impossible for voters to pass in and gain access to the ballot boxes. At about eight o'clock the employees of the Central Railroad marched up in a body for the purpose of voting.

THE RIOT.

The railroad men finding the entrance to the polls blocked up by a large and compact body of colored men, stated that they could not afford to lose a day's work, and if they could not promptly gain access to the ballot box they would be compelled to return to their work without voting. Mr. J. B. Killourhy, one of the Sheriff's special deputies, volunteered to open a passage for them through the dense crowd of colored men, and as he made the attempt he was violently assaulted and struck with a club by a colored man, inflicting an ugly wound. Sheriff Dooner then called upon the city police force to aid him in clearing the way. Lieutenant Howard, who was in command promptly responded to the Sheriff and ordered his force to clear the way, when police officer R. E. Reed made an attempt to arrest a negro who was very disorderly, whereupon the negro fired a pistol, the ball of which entered the body of officer Reed at the lower part of the abdomen, inflicting a mortal wound. The negroes then commenced an indiscriminate assault upon the police, in which clubs, stones, brickbats and pistols were freely used. The police first fired their pistols in the air, but finding this did not induce the negroes to desist, they fired into the crowd.

THE KILLED AND WOUNDED.

Police officer, R. E. Reed, supposed to be mortally wounded. Police officer, Patrick McMahon, was shot in the thigh. The ball has not been extracted and is supposed to have lodged against the bone. Samuel Bryan, police officer, was shot badly, but thought not to be dangerously wounded, and Mathew Deignan, also a police officer, was slightly wounded. John A. Haupt, a citizen, formerly engineer of the Oglethorpe Steam Fire Engine Company, received a pistol shot in the shoulder, inflicting a painful but not dangerous wound.

Three colored men are known to have been killed, but we could gain no satisfactory information as to the number wounded.

A colored man, who had died of a gunshot wound, was found at the corner of Whitaker and Gordon streets. We also learn that the aggregate number of colored men with gunshot wounds, attended by three physicians, is about twenty.

Since writing the above we are pleased to learn that in the case of police officer, R. E. Reed, the ball did not enter the cavity of the body, as was at first supposed down into the thigh, from which it has been extracted, and his recovery is now considered to be highly propable.

CORONER'S INQUESTS.

Dr. Thomas C. Harden held inquests upon the bodies of two of the colored men killed, and the dead body of another was found in Charlton street lane. upon which no inquest was held nor was his name ascertained.

INQUEST UPON THE BODY OF SAM. PARSONS (COLORED.)

Henry Bacon, colored, was sworn and testified in substance, that he was standing in front of the Court House, and saw the Police firing into the crowd, and the colored people at the same time firing into the police—that he saw two colored men fall, one of whom was the deceased—saw no whites fire except the police.

Nancy Golden, colored, was sworn and identified the deceased—said he was formerly from Liberty county, had a wife and children in Chatham county and was about fifty years of age.

VERDICT OF THE JURY.

"We, the jury find that the deceased came to his death during a disturbance between the City Police and the colored people, by a gunshot wound inflicted by some person to the jury unknown."

INQUEST UPON THE BODY OF PETER HOPKINS, (COLORED.)

Peter Roberts, (colored) was sworn and testified substantially as follows:—I went to the Court House between eight and nine o'clock; shortly afterwards I heard the report of firearms; I saw the city police firing into the crowd, and the colored people at the same time firing at the police; during the firing I saw the deceased fall; I went to him and found him to be dead.

Benjamin F. Cole, ex-sheriff of Chatham county, sworn:—I first went to the west end of the Court House, and, upon my arrival, heard many threats made by the colored men against the whites, with sticks raised at the same time; I retired to the rear of the Court House to see the County Sheriff for the purpose of quelling the excitement, but did not see that officer; while in the Court House, a number of policemen went to the west end; I then went out of the Court House door at the east end and went around to the west end; on my way I heard the report of fire-arms, and on my arrival I saw brickbats flying into the crowd in front of the western door; the brickbats were thrown by the colored men; I saw two colored men draw revolvers and fire into the crowd; before they fired I begged them to desist, but they paid no attention to me whatever; I do not know the deceased.

Benjamin Scott (colored) was sworn and identified the deceased as being Peter Hopkins.

VERDICT OF THE JURY.

"We, the jury, find that the deceased came to his death by a gunshot wound inflicted by some person to the jury unknown, during a riot between the city police and the colored people, between eight and nine o'clock A. M.. at the Court House in the city of Savannah, on the third day of November, 1868."

A LADY WOUNDED.

A daughter of Dr. P. M. Kollock was standing at the front window of her father's residence, on the west side of Court House square, when a ball passed through one of the lowest panes of glass and entered the calf of her leg, and glanced downward, inflicting a very painful but not dangerous wound. When last heard from the ball had not been extracted.

THE MAYOR THREATENED.

Shortly after the firing ceased, as Colonel Anderson, the Mayor of the city, was approaching the Court House, he observed a colored man lying dead in the street, and stepping aside to look at the dead body, a colored man remarked that the colored people were able to drive the white people from the polls, and they ought to do it, whereupon His Honor arrested the colored individual and a furious attempt was made to rescue the prisoner, but by the aid of citizens who were standing by, he was securely lodged in the Barracks.

THE MILITARY ORDERED OUT.

Shortly after the firing ceased and order was restored, a squad of United States soldiers from the Oglethorpe barracks was marched into the square, and the Mayor informed them that they were ordered to report to him. His Honor informed the officer in command that he was fully able to maintain the peace and order of the city, and protect the ballot boxes without the aid of the military, whereupon the troops were marched back again to the barracks.

LETTER FROM SHERIFF DONNER.

At five o'clock P. M. Hon. P. M. Russell read the letter from Sheriff Dooner in response to a note which had been addressed to him:

SHERIFF'S OFFICE,
Savannah, November 3, 1868.

Phillip M. Russell, Esq., and others:

SIR—Your communication is duly received. I laid your communication before His Honor the Mayor, and he has very kindly informed me that he will provide a force necessary for the protection of the ballot boxes.

Very Respectfully.
JAMES DONNER,
Sheriff Chatham County.

At six o'clock P. M. the polls closed, when it appeared from the poll books that the number of votes received were as follows:

First Ballot Box,	1,176
Second Ballot Box,	2,136
Third Ballot Box,	1,617
Total,	4,929

THE CONDUCT OF THE POLICE.

When the police were assailed by a furious mob with clubs, pistols, brick-bats and other missiles, they maintained their position with the coolness and firmness of veteran soldiers, and although but a handful they succeeded, by their valor and discipline, in dispersing the mob, which probably outnumbered them fifty fold.

We learn that the city authorities have incontrovertible evidence in their possession to show that there was a preconcerted plan, on the part of the negroes, and their leaders to take possession of the polls in the city and prevent every white man from voting, and the riot at the polls was the result of an attempt to carry that preconcerted plan into execution.

There are any number of startling rumors in circulation, which we have not been able to verify, and, therefore, do not refer to them. At this hour, midnight, the city is perfectly quiet.

THE OLDEST HOUSE IN AMERICA.—By far the most interesting as well as the most abused of Medford antiquities is the old brick house built by Governor Matthew Cradock, in 1634, the oldest house probably in the United State. The early dwellings of the Jamestown and Plymouth settlers have long since disappeared; but this building with its solid walls, eighteen inches thick, has stood here on the quiet bank of the Mystic for more than two centuries. Cradock was a wealthy London merchant before he emigrated, and the house was a very costly one for those times. It is two low stories in height with a curb roof, and low, almost square windows. In the upper part of the walls near the eaves are two or three "ovals" or apertures, twenty inches in height by sixteen in width, around which the bricks were laid in the manner of an arch. Some of these are now filled up with brick, or with a pane of glass, and whether they were intended for loop-holes in case of war or for ornament is not known. Inside there used to be fire-proof closets and other elaborate appointments of a frontier dwelling, but I presume many remodelings have destroyed the original plan of the interior. It has long been treated as a mean house, fit for poor tenants to live in. Several years ago, Brooks, in his history of Medford, pointed out the importance of its preservation as a historical relic, but nothing has ever been done about it, and here, within five miles of the modern Athens, this, the oldest house in New England, and probably in America, stands, unthought of and uncared for, except as its owner calculates the price of rent.—*Boston Letter.*

The London Times in discussing the election holds that though the Democrats are beaten and representation in Congress is largely against them, they are yet a powerful party, and must greatly influence the policy of the Government. The success of Grant no one is disposed to regret. He has fairly won his high rank by hard work, real devotion to his country, and services which will live long in its remembrance. He is no politician, and will take his office with greater freedom than if he had uttered all the shibboleths of the party.

Minnesota goes 12,000 for the Republicans. Donnelly is certainly defeated.

The application for appeal in the Surratt case was dismissed. Surratt is now absolutely free.

The Rice Crops of Georgia and South Carolina.

A correspondent of the Charleston Mercury, writing from Hendersonville under date of 22d ult., thus speaks of the rice crop generally, and those of Ashepoo and Combahee particularly:

Your Georgetown correspondent says that of the twelve thousand tierces computed for, not more than five thousand will reach the market.

The Savannah papers admit an aggregate loss of one-fourth of the crops on the Savannah, the Ogeechee and the Altamaha rivers. I regret to say that I have an equally sad account to give of the produce of the Ashepoo and the Combahee rivers.

The fall of water that took place towards the first of the month, flooded the whole country here. Almost every plantation was under water, from five or six inches to two feet. The continuous east winds backed up the freshet in the river, so that the fall of water could not be voided through the trunks. It rested where it fell. The planting this year was in a large measure late, on account of the heavy freshets in the spring. Large quantities of June rice are not yet cut. May rice is on the stubble and a great deal of April rice is stacked in the field for want of labor to remove it. These ricks have first sucked up the water, then given way, and most of it sprouted. The rice on the stubble hang their ears in the water or are entirely floated away.

This has sprouted. The only salvation for all this rice was clear, hard weather. But instead of this we have had seemingly an eternal rain. Every rice planter knows what taking sprouted rice out of the field means, even under the best circumstances. It means thirty-five per cent. off the bulk of his crop. And thirty-five per cent. off the value of such rice when put in the mill, and you have the loss. What are the circumstances now? It has been raining for over footy-eight hours. This rain has fallen on rice taken out of the field, in the sprout, and put on the dams to be sunned and dried.

Under these circumstances, I may be allowed to express an opinion. I do not see by what possibility more than thirty thousand tierces of sound, exportable rice can possibly reach the market. One-fourth less land has been planted than last year, and at least one-fourth. if not a third of the crop will be lost. The crop last year was forty-one thousand tierces exclusive of Louisiana rice. If my computation of the loss is correct, the figures are simple, and if I am correct in my premises, there is not a bushel of sound, exportable rice in this State, that is worth less than $2 50 to-day. I believe it will touch $3 by March. I have been correct in my calculations last year and the year before. I think I am not far from the facts now.

AN OBSERVER.

A WHALE ON THE LONG ISLAND COAST.—On Tuesday last Mr. Daniel Bedell, of Newbridge, L. I., was in a boat trotting for blue fish about six miles off Jones' Inlet, when a whale rose under the stern of his boat, and, knocking it up, completely tore off the stern, threw out the mast, which in falling back went through the bottom of the boat, and made a wreck of the boat generally. Mr. Bedell was thrown into the water, but fortunately other boats were near, and Mr. Bedell was rescued by Capt. Thomas Raynor and John Edwards, who also towed ashore the remains of his boat. *Hempstead Inquirer.*

Y. M. D. C.—The members of this organization are earnestly urged to atteud the meeting to-night. Business of importance will come up tor action. But an hour will suffice to accomplish it if all are prompt at 7 o'clock. It is hoped every member will be present.

THE NEGRO "RIGHT SIDE UP WITH CARE.' We congratulate the negroes of this State on the good sense and sound judgment of a majority of them in voting with the Democratic party on Tuesday last, as shown by the result of the election. We hail their action, in this respect, as an auspicious omen of the future. They have wisely identified themselves with that party in whose hands alone the future safety of their race resides. They are entitled to the more credit from the fact that labored efforts were made by the emisaries of evil in the State, through falsehood and deception, not only to prejudice them against the Democratic party, but to embitter them to an intense degree of hatred against the whites. We repeat, in view of these pernicious influences sought to be imposed upon them, and the decisive manner in which they were rejected at the polls, they have displayed their good sense, a determination to do right, and a willingness to work harmoniously with the whites for the peace and prosperity of the State.

Henceforth, Georgia, under the control of her best citizens, as she will be whenever the corrective can be applied by the ballot box, and the creatures by whom she is now in a measure misrepresented, displaced, will enter upon a career of unexampled prosperity. With equal protection to the rights of both races guaranteed by the civil laws, and with an overwhelming majority of the State in favor of law, order and good government, we shall know no more of Radical strife and bickering, as in the past. That party met its deserved doom in the election of Tuesday. The hand of retributive justice has overtaken it, and it will no longer have an abiding place in this State. The material interests of our State will prosper now as they have not prospered for years, peace will brood gently over the land, and general prosperity cause us to rejoice with that joy which springs from the blessings of a united and happy people.

AN EVENT NOT IMPROBABLE.—When Congress assembles, on the first Monday in December, one of the first questions which will come before that body will be the relation which Georgia sustains to the Federal Government. Congress is certain to investigate the late action of the Georgia Legislature in ousting a large portion of its members, and its action in reference to jurors, as well as the Camilla massacre and other murders in the State, and the farce of an election on last Tuesday. We think it not improbable that the National Legislature will authorize the re-assembling of the members of the Georgia Convention, and the amendment of the Constitution in such a manner as to place it out of the power of Democratic knaves and fools to misconstrue the meaning of its provisions Something must and will be done, our friends may rest assured.

We copy the above from that infamously lying, slanderous sheet in Augusta, yclept "National Republican." It shows the animus of the whining whelps who have been beaten in their nefarious efforts to drag this proud old Commonwealth down to their own filthy level, as well as the canting hypocrisy of their cry, "let us have peace."

We opine the hired traducer of his race, and foul caluminator of the people of Georgia, will have about as much influence at Washington to punish the "Democratic knaves and fools" of this State, as he has respectability among the decent people in the community that is cursed with his presence.

We care nothing for his wishes or his predictions as to the National Legislature; but one thing is dead sure—the time has come when such creatures must be more cautious and more respectful in the language they use towards our people; there is a point at which forbearance ceases to be a virtue. and by the gods, that point has been reached, and men will no longer submit to their taunts and insults. We make no threats, and "intimidation" is not the weapon we propose to use; but we intend to preserve our self-respect and our personal rights; and we hesitate not to re-announce as a cardinal principle, that the freedom of speech and of the press, carries with it the freedom of the cudgel.

THE RESULT IN GEORGIA.—Georgia has gone Democratic by a very large majority. This majority we are satisfied has been obtained by intimidation, corruption and purchase. We are advised of many instances in which such means were used, and in due time will probably make a full showing of the whole.

Without the use of such means it would have been a moral impossibity for the State to have gone Democratic by any considerable majority. The reign of terror that was instituted over what is known as the black belt has produced its fruits. Republicans were intimidated into remaining away from the polls rather than risk rioting, while the weak-kneed among them went to the polls and voted contrary to principles out of sheer fear of personal injury. We shall hear more of this.—*New Era.*

With the exception of the first line, the above paragraph is false and slanderous, every word of it, and the base hireling who uttered it knew it. But that's nothing, he is paid to falsify, and has learned to love the vocation.

We will double the fraud and majority next time.

Fruition of Radical Supremacy.

With Congress, the Supreme Court, and the Executive each of the same political complexion, before the noon of the incoming admintstration we shall reap the full fruition of Radical supremacy. We shall realize the logical sequence of Radical principles in their maturity. The budding season, the blossom time, the summer solstice are gone, and the autumn is at hand. The harvest begins, and we shall soon test the ripened fruit. With no opposing President, as in the person of Andrew Johnson, the entire machine, at least for a time, will work with oily smoothness and harmony. We have had golden promises—now for their fulfilment. With no brake to check the train it will rush on at full speed, impelled by the concentrated steam of a forty horse power. The people were not satisfied with a scanty dish of Radicalism. They have resolved to have a full meal. They will now have an undivided feast. Let them have it. Let them beware lest the shout of their revelry be silenced by the wail of wo. Should they topple the whole country headlong over the precipice the South can bear it. Having borne much she can yet bear a little more. In a measure we are already over, but would prefer to climb back rather than have the other sections precipitated into the same chasm. The people seem not to have been satisfied short of the utmost tension of Radicalism. If it is indeed to be the panacea for all our ills, as claimed for it, who shall object? Should it prove to be the bane instead of the balm, the Democratic party may truly exclaim, "Thou canst not say I did it." It will steadfastly oppose the ruinous policy of the Radical party until it accomplishes more satisfactory results than any yet given to the country. Should it bestow peace, prosperity and happiness, the people may justly in the end taunt the Democratic party with its shortsightedness, and sustain the Radicals on the gound of their more salutary measures. On the contrary the Democratic party is in no wise responsible for the evils with which the country is beset. Should the Republic break down under the pressure of rampant Radicalism, the effect will attach where it properly belongs. Had Mr. Seymour been elected, Congress would have still governed the country until a change could be effected in that body, while, with a Democratic President, the responsibility would have been fastened more or less upon the party. Now there will be no clog in the wheel. The tide setting in one direction will not be ruffled by an adverse wind. Where it will bear us in the end we shall yet see. If we escape the breakers we can thank our stars when the danger is past. Georgia, at least, is safe. She has "chosen the good part," and will patiently await the return of the whole country to those priciples in whose preferment she has pronounced. The South, we believe, will be let alone. No political advantage is to be gained by a further intermeddling with her affairs. Where it has been accomplished in form the spirit of reconctruction, as designed, is already dead. Shaped with an eye single to the Radicalization of the Southern States, through the aid of the negro vote, in this it disappoints its friends. That vote will soon be all Democratic, as shown by the late election, and in the future, as in the past, the States of the South will present an unbroken Democratic front So far so good. The sequel of Radicalism in the United States remains to be written in unsurmountable difficulties—vexatious questions before whose solution even the bravest heart would shrink—perplexing and oppressive taxes, wars between conilicting financial interests, fierce and bitter as the contest of the roses, greenbacks *versus* gold, the working people against the bondocrats, and who knows but the *finis* to this strife and struggle will end in the simple word—REPUDIATION..

How the Radicals Triumphed—A Few Figures for Gen. Grant's Edification.

General Grant has been elected President of the United States, and the Radical press is going wild with rejoicings. May we not ask if this is a victory of the people, or a victory of legislation? Look at the following figures:

At a mere glance it seems as if the Radicals have a majority of 105,000 on the popular vote. Florida, by means of an infamous Legislature, cast her vote for Grant; her people were voiceless, although she is Democratic by at least five thousand. But hers is not the only exception. In the long list of Radical States, are to be found Missouri, Tennessee, West Virginia, and North Carolina, a majority of whose citizens are Democrats, but who are not allowed to vote. Virginia, Mississippi, and Texas, took no part whatever in the election. Thus the party of "Universal Suffrage" disfranchised 30,000 in West Virginia, 80,000 in Texas, 90,000 in Mississippi, 90,000 in Missuri, 100,000 in Tennessee, 200,000 in Virginia, and at least 15,000 in North Carolina. Had all these States, and all their citizens been allowed to vote, thirty-five electoral votes (Missouri, Tennessee, West Virginia, and North Carolina) now counted for Grant, would have been for Seymour, while twenty-three votes, not counted at all (Virginia, Mississippi, and Texas) would have gone the same way.

If we make the most liberal allowance for the Radicals the fact remains unchanged, that in the thirty-seven States of this Union, with all the citizens enfranchised, the Democrats have a clear majority in the popular vote as follows:

Democratic majorities	575,000
Radical majorities	298 000
Total Democratic majorities	277,000

We have given the Radicals their very highest estimate and reduced the Democratic vote as low as possible. Even as it now stands, if the negro vote be taken away, we have a majority of not less than 300,000 in the popular vote in those States that have been allowed to take part in the election. Had every State and every citizen, without excepting even the negroes, been allowed to vote we might not have elected Seymour, it is true, but the result would most assuredly have been:

Electoral votes for Grant	161
Electoral votes for Seymour	156
Majority for Grant	5

But it must be remembered that had Florida been allowed to vote she would certainly have gone for Seymour, thus electing him by a majority of one. To make this statement clear, beyond a doubt, we give the following as being the true figures, presuming, of course, that every State had taken part and all the citizens been allowed to vote:

Democratic. States.	Electoral vote	Radical. States.	Electoral vote.

We defy any man to deny that but for the desfranchisement of over a half million of white men, Seymour and Blair would have been President and Vice President elect of the United States this day. Of the eight States marked with asterisks, &c., but four participated in the election, and all went for Grant because 235,000 of their white citizens were not permitted to cast a vote. In three no elections were held at all. In one (Florida) a Legislature of carpet-bag and scalawag adventurers took upon itself the work of casting the electoral vote of the State, knowing full well that if the people went to the polls the returns would show a majority of at least five thousand for the Democratic candidates. All of these eight States are Democratic.

Now, in the face of these facts, is it not sheer mockery to assert that General Grant is the choice of the people of this republic? By a system of legalized despotism, by enormous frauds in Pennsylvania and elsewhere, sanctioned by a partisan and corrupt judiciary, the Radicals have triumphed. The party of "great moral ideas," of "universal liberty and universal suffrage," has retained its power only by enslaving and distranchising probably six hundred thousand native born and naturalized citizens of this once free government. We sincerely trust that General Grant will take the trouble of scanning the foregoing exhibit, and thus ascertain what the real will of the people is. If he does, and if, as he pretends, that will is to be ever his law, there is yet a hope that from the midst of our gloom a bright future will appear. If he does not, and if Radical excesses are to continue, they cannot last long, for even though the votes of the majority be powerless now, they must some day be potent to rescue the liberties of their country.

☞ "The *Era* has been the champion of Gen. Grant. It will now be his advocate."

Its championship is illustrated by the 50,000 majority in Georgia for Seymour. Its advocacy may be equally successful. Gen. Grant will probably be reminded of the old saw, "Save me from my friends."

WHOSE GOVERNOR IS HE?—Less than half the negroes, and a motly crew of white-skinned nondescripts, called carpet baggers, and scalawags, numbering less than 10,000, have the honor of claiming Bullock as their Governor. All the decent and honest people repudiate him as a fraudulently begotten and forcibly conceived monstrosity.

WHO WAS ELECTED GOVERNOR?—The people of Georgia, by 50,000 majority, say that Gen. John B. Gordon was elected. "Sharp and Quick" falsely counted and said another was elected, and the sword of Meade placed a Bullock in the chair.

THE BLOODSHED ON TUESDAY—WHO IS RESPONSIBLE FOR IT.—The melancholy events of Tuesday have been recorded in our local column, but we allude to the subject for the purpose of denouncing the conduct of well known evil disposed white men in this community, who, for their own ambitious and corrupt purposes, have sought to control the negro population by imposing on their ignorance, exciting their worst passions against the whites and inciting them to deeds of violence and blood. It is known to our citizens that some of these men have had nightly councils with the negroes; that they have distributed among them infamously false and inflammatory documents; that they have inculcated in them feelings of distrust, resentment and hatred toward the whites. advising them to come to the polls in solid phalanx, knowing them to be armed and prepared for bloodshed.

While we denounce these miscreants as enemies to both races, we would warn our citizens against them as dangerous members of the community. *Self-protection is a universally recognized wright and duty.* and if there is no law that can reach these enemies of the public peace, our citizens owe it to the community, to their own security, that of their families, homes and property, to take measures to protect themselves against the evil machinations of such cowardly incendiaries.

The blood that was shed on Tuesday is upon the hands of the white wretches, who it is said, advised the negroes to the course which led to the collision.—*Savannah News.*

☞ William Preston Hilliard died at the residence of Mr. Asbury Johnson early yesterday morning, after an illness of some thirty hours. He was a son of Hon. Henry W. Hilliard, of Augusta, Ga., formerly of Montgomery, Ala. Few men commenced life with more brilliant prospects and brighter hopes, and few have more signally disappointed them. His age was not much more than thirty years.—*Columbus Sun.*

Death of Samuel S. Law.

From the Savannah News, Nov. 5th.]

The following is the testimony introduced before the jury at an inquest held yesterday by Dr. T. C. Harden, Coroner of Chatham county, upon Samuel S. Law, deceased:

M. G. Prendergast, sworn: I was ordered yesterday, 3d November, at 7½ o'clock, P. M., by Gen. Anderson, Chief of Police, to take charge of a squad of six men and proceed on the Ogeechee road and order an armed body of negroes who were reported to be advancing on the city to disperse. I met said body of negroes about two miles from the city of Savannah and gave them the orders. They immediately replied by a volley of fire-arms, to which I immediately ordered my men to reply. After exhausting the contents of our pistols, I retired and occupied a position some three or four hundred yards in the rear and dispatching a courier to Gen. Anderson for instructions. During the first volley fired by the negroes, one of my men was killed by a gunshot wound inflicted by the negroes. The name of the killed was Samuel S. Law, whose body was found about twenty yards from where he was shot in about three hours after the firing.

This body of negroes that killed Samuel S. Law, I recognized to be a body that early in the day had met us at the store of Mr. Charles Chapman, in Chatham county, and threatened our lives, and was incited to the same by a negro named Aaron A. Bradley, who was present during the time said negroes threatened our lives, and was also present during the firing, when Mr. Law was killed.

I saw Bradley on Friday at 4 o'clock, in a carriage, and also recognized the same carriage again at 7 P. M., with the negroes during the time the negroes were firing on my party.

G. A. Wilkins, sworn—Yesterday afternoon at seven o'clock. P. M., 3d November, 1868, I was called on by Mr. Prendergast to fall in with a squad of six men who were going on the Ogeechee road to order a number of armed negroes who were reported advancing on the city, to disperse; we met said negroes about two miles from the city of Savannah, and Mr. Prendergast ordered them to disperse; they only replied by firing into us; Mr. Prendergast ordered us to return the fire, which we did; during the first firing by the negroes Mr. Law was killed by a gunshot wound inflicted by the negroes; I do not know any of the negroes; I saw a carriage in the road, guarded on each side by negroes; said carriage I was told contained the negro man named Aaron A. Bradley; before said armed party of negroes reached us I heard the order given to halt; I again heard another order given "fours in front," and just after that order another was given to forward column. I do not know who the person was that gave the order.

D. L. Roberts sworn: I was present during the firing of the negroes and of Mr. Prendergast and his men, and certify that the statement made by Mr. Wilkins is correct and true, and that on my way to the city to report to General Anderson, I was fired on twice by persons on the side of the road unknown to me.

Dr. R. P. Myers sworn: I certify that I have examined the body of Samuel S. Law, deceased and find a large wound of one and a half inches in diameter over the region of the heart (left side), fracturing the ribs (5th. 6th, 7th, and 8th). penetrating the cavity and lacerating and tearing away the apex or lower part of the heart, causing, in my opinion, instantaneous death.—Said wound was caused by a gunshot.

VERDICT OF THE JURY.

We, the jury, find that the deceased came to his death from a gunshot wound in the left breast, received from the hands of an armed body of negroes under the control of (from evidence given to the jury) a negro named Aaron A. Bradley, on the Ogeechee road.

WASHINGTON, November 6—Evening.—General Grant left Galena yesterday and will spend several days on the route. He writes he would much prefer returning home quietly without any demonstration here, resting a few days after his arrival, friends can visit him at his residence.

A delegation of Democrats from New York are urging McCulloch's removal. McCulloch expresses his willingness to retire on the slightest intimation from the President.

HEADQUARTERS OF THE ARMY,
ADJUTANT GENERAL'S OFFICE,
WASHINGTON Oct. 31, 1868.

The following order has been received from the War department, and is publised for the information and guidance of all concerned:

Soldiers may, for certain offenses not strictly military, be sentenced, by General Court Martial, to confinement in a penitentiary. If any State in a military department has made provision by law for confinement in a penitentiary thereof of prisoners under sentence by courts martial of the United States, the department commander may designate such penitentiary as a place for the execution of any such sentence, to penitentiary confinement; but if no such provision has been made by any State in the department, the record will be forwarded to the Secretary of War, for designation of a prison. The authority which has designated the place of confinement, or higher authority can change the place of confinement or mitigate or remit the sentence. The same rules apply to prisoners sentenced by military commissions, so long as the law under which the military commission acted is in force; but when that law ceases to be operative. the President alone can change the place of confinement or mitigate or remit the sentence.

By command of General Grant.

Johnson, Democrat, telegraphs from California that he is elected to Congress.

The annual report of the Freedmen's Bureau, just made by General Howard, shows an expenditure during the year of $3 977,000. He sees no necessity for continuing the bureau beyond new year's day, at which time it expires by Congressional limitation, and his recommendations for the future looks only to continuing the freedmen's hospitals at Washington, Richmond, Vicksburg and New Orleans, the estimate for all of which amounts to only $90,000. The educational work, and that of aiding freedmen to collect their claims which is already provided for by law, shall continue till further action is had by Congress. But the bureau will have surplus funds enough to go on in this work without further appropriations. The school expenditures during the past year were $2 000,000, of which the freedmen paid $360,000, Northern benevolent societies 700,000 and the bureau $94,000.

PHILADELPHIA, Nov. 6.—Return judges threw out the Fourth Ward on account of frauds, making the official majority 5,812.

RALEIGH, N. C., Nov. 6.—Election returns are yet so incomplete that it is impossible to say with certainty how the State has gone. The general opinion is that it has gone for Grant by a majority of 5,000, more or less. Large Democratic gains were made in the 1st, 2d, 3d and 4th Congressional districts. Cobb in the 1st, Henton in the 2d, Dewees in the 4th and Lash in the 5th Congressional disttcts, all Radicals, are elected. The returns indicate the election of Shober in the 6th, Durham in the 7th, and possibly McKay, Democrat, in the 3d districts.

TALLAHASSEE, November 6.—Two thousand (2000) stands of State arms, in transit by railroad from Jacksonville here, were seized by some unknown persons, last night, near Madison. A special train, with a detachment of soldiers, left here for the place of the robbery at four this morning.

Hamilton has been renominated for Congress by the Republicans. The Legislature is yet in session. It will probably adjourn to-day.

W. U. Saunders, a colored man, is out as candidate for Congress.

Harrison Reed, Governor of the State, was impeached by the Legislature to-day, charged with high crimes and misdemeanors in office. The charges were preferred by Horatio Jenkins, President of the late Constitutional Convention. Three fourths of the members present voted in the affirmative; all the members were not in attendance. Governor Reed will contest the case, and his friends claim that the body in session is illegal. It may adjourn the ... is illegal. It parties ... to-morrow. From best accounts the road ... who destroyed the State arms on the railroad last night, must have forced the cars at Madison. They broke open the cases of rifles and distributed them along the track several miles. The ammunition shared the same fate. Cost to the State 20,000 dollars.

SAVANNAH, Oct. 6.—The negroes were all quiet to-day. Two small fights occurred.

CHARLESTON, Nov. 6.—Returns from the interior show that the Republican majority in the State will be largely reduced. Reed and Simpson Democrats, are certainly elected to Congress from the third and fourth Districts, and Bowen, Republican, in the second. The first is in doubt, with a probability of the re-election of Whittimore, Republican.

AUGUSTA, November 6—Returns from seventy counties give the Democrats a majority of over 30,000.

A CITIZEN SHOT BY HIS SON-IN-LAW. Yesterday afternoon Mr. Charles Lee, a well known citizen, residing in Robertsville, was shot and very badly wounded by his step-son, John Donovan, a youth sixteen or seventeen years of age. The ball entered the abdomen, from whence it was extracted by Dr. J. H. Read, who was called to attend the wounded man.

Mr. Lee has long been in the employ of the Central Railroad Company, and bears the reputation of a peaceful, quiet and good citizen.

The boy had long been threatening to take his father's life, in revenge for some grieveance. and meeting him yesterday he attempted to carry the threat into execution. He had not been arrested at our last report. Mr. Lee was suffering very much, and the wound is a serious one. He was not expected to live last night.—*Savannah News.*

SUGAR CANE CROP.—We are pleased to be able to report favorable of this important crop throughout this section. The frequent rains of the past six weeks and the lateness of the advent of the winter season, have been greatly to the advantage of sugar cane. While the crop is not so good as it was last year, it is, nevertheless, excellent, and will yield a large quantity of sugar and syrup, approximating an average number of barrels according to the number of acres planted.—*Bainbridge Argus.*

A NUT TO CRACK?—November 3d, 1868, Georgia went about 40,000 majority for Seymour. How's your mathematics, Hulbert? How do you feel, Governor Bullock?

SKIFF & GAYLORD COMING BACK.—Joe Mack, the polite agent of this inimitable troupe, paid us a visit last night, and gave us the pleasing information that it will be in Atlanta on the 13th and 14th and afford our fun-loving people another opportunity to laugh and grow fat.

AN INTERESTING COINCIDENCE.—We are pleased to learn that through the efforts of our immediate Representative in Congress, Gen. P. M. B. Young, our young friend, George S Hoyle, has received the appointment from this district to the West Point Military Academy. He will enter the institution next June.

General Young was the last cadet from this district before the war, and he has the honor of making the first recommendation since its close.

COMPLIMENTARY BENEFIT.—By referring to correspondence in another column it will be seen that Miss Charlotte Thompson takes a complimentary benefit to-night. The play is Fanchon. This being the last night of Miss Thompson's appearance in Atlanta, we expect a crowded house. She is an actress of high fame and rare dramatic endowments. Ably supported by the Gilbert Star Company, her engagement here has been a perfect success.

On Monday, Mr. Gilbert, with his company, leave for Macon, where they will perform for the ... We take great pleasure in commending them to the patronage of the Maconites.

JOHN ROBINSON'S CIRCUS AND MENAGERIE.—This large and elegantly equipped concern will be in town and exhibit on Saturday, Nov. 21. New attractions are added to the old, and we are promised the most magnificent exhibition ever given here. James Robinson, the bare-back rider of world wide renown; George M. Kelly, who leaps seventeen horses in his artistic summersault; Mons. Franconi with his dancing horses Stonewall and Grey Eagle; Isabelle Cordelia, the great female bare-back equestrienne, and the colored boy Lewis, are only a few of the advertised features. These, with fourteen cages of living wild animals, birds, and other curiosities, and a host of arenic talent, form a grand establishment. But who don't know that John Robinson always had a good show?

ATLANTA, GA., November 5, 1868.

Miss Charlotte Thompson: We, the undersigned citizens of Atlanta, appreciating your talent as a Lady and an Actress, do hereby respectfully tender you a complimentary Benefit, to take place at such time as may be agreeable to yourself.

THE BEST IN THE WORLD!

STONE & MURRAY'S

CIRCUS!

(Formerly Stone, Rosston & Murray's,)

Will Exhibit in Atlanta,

Monday, November 9th, '68,

AFTERNOON AND NIGHT.

The Leading Circus in the World!

Unparagoned in Splendor!

THE established reputation of this Circus is too well known to require an elaborate description. Look at the grand array of Sensational Riders, Emotional Gymnasts, Phenomenal Acrobats, the most wonderful in the universe:

M'DLLE JEANETTE,

The graceful and dashing Parisian Equestrienne, the most brilliant and daring lady rider ever seen. Her first season in America.

THE GREAT JOHN HENRY,

The superb defiance champion Equestrian and Thaumaturgic Artiste, late Director of the Cirque Napoleon, Paris. His first season in America.

LEJEUNE BURTE, the premier bareback Horseman, champion rider of the world.

MURRAY AND HUTCHISON, the excelsior Acrobats, the originators of a new series of novel performances.

THE ROLLANDE BROTHERS, the peerless Sensational Gymnasts.

GEORGE COOKE, the noted English Protean Character Rider—first season in America.

Mr. D... ...NE, the skillful Doctor ... and Popular Humorist, and

Mr. FRED. MAY, the merry Monarch of Clowns, and Favorite Jester, will preside in the department of Mirth.

Mr. HARRY NORTH, the most expert Tumbler in the world.

Mr. BURT JOHNSON, the champion Leaper and Vaulter.

Mr. GEORGE MURRAY, the Grotesque Comedian.

Mr. ROBERT JOHNSON, the remarkrble Pancratist.

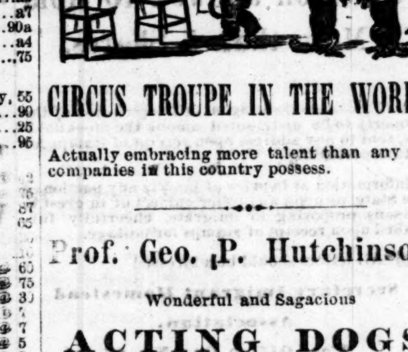

HERR LUDORFF, the amazing Equilibrist.

WM. ARMSTRONG, the Classic Scenic Equestrian.

The chief attachees will be aided by a complete force of Auxiliary Talent, consisting in part of Sigs. Morratti and Xertignes; Mons. Nicoya and D'ucroix; Herrs Wetzlar, Polnitz, Stalberg and Bishofen; Messrs. Bywick, Forrest, Merton; Masters Freddie, Clarance and Walter; the whole forming

THE MOST BRILLIANT

CIRCUS TROUPE IN THE WORLD!

Actually embracing more talent than any three companies in this country possess.

Prof. Geo. P. Hutchinson's

Wonderful and Sagacious

ACTING DOGS,

AND

DEN. STONE'S JOCOSE MULES

Are fixed features with this Circus, and their remarkable portrayals of Animal Intelligence will continue to afford rich themes for amusement.

SAVANNAH REPUBLICAN,

Daily and Weekly,

By J. R. SNEED.

THE undersigned is pleased to announce to his friends and the public that he has again come in possession of this time-honored journal, and expects to devote his entire time to making it, as a newspaper, second to none in the South. The liberal patronage of the past and better years, while the REPUBLICAN was under his charge, encourages him to hope that by prompt and continued support the public will enable him to carry this purpose into effect.

To the MERCHANTS of the South, and especially of his own State, he looks with confidence for a general support, promising them, in return, the best news, commercial and political journal that his experience and capabilities can produce.

The Weekly Republican,

Designed more especially for the planting community, and others who have not the privilege of a daily mail, will be found to contain all the news of the week condensed into a small compass, and by the close of the year we expect to issue it on a large and imperial sheet of eight pages, to contain more reading matter than any paper in the South.

TERMS:

Daily, One Year	$10 00
" Six Months	5 00
" For a less time (per month)	1 00
Weekly per Year	3 00

The Footsteps of Decay.

The following is a translation from an ancient Spanish poem, which, says the Edinburg Review, is surpassed by nothing with which we are acquainted in the Spanish language, except the "Ode of Louis de Leon:"

Oh! let the soul its slumbers break—
Arouse its senses, and awake
To see how soon
Life, in its glories, glides away,
And the stern footsteps of decay
Come stealing on.

And while we view the rolling tide,
Down which our flowing minutes glide
Away so fast,
Let us the present hour employ,
And deem each future dream a joy
Already past.

Let no rain hope deceive the mind,
No happier let us hope to find
To morrow than to-day;
Our golden dreams of yore were bright,
Like them the present shall delight—
Like them decay.

Our lives like hastening streams must be
That into one engulfing sea
Are doomed to fall—
The sea of death whose waves roll on
O'er king and kingdom, crown and throne,
And swallow all.

Alike the river's lordly tide,
Alike the humble rivulet's glide,
To that sad wave!
Death levels poverty and pride,
And rich and poor sleep side by side,
Within the grave.

Our birth is but a starting place;
And death the goal;
There all our glittering toys are brought—
That path alone, of all unsought,
Is found of all.

See, then, how poor and little worth
Are all those glittering toys of earth
That lure us here;
Dreams of a sleep that death must break;
Alas! before it bids us awake,
We disappear.

Long ere the damp of death can blight
The cheek's pure glow of red and white
Has passed away;
Youth smiled and all was heavenly fair—
Age came, and laid his finger there,
And where are they?

Where is the strength that spurned decay,
The step that roved so light and gay;
The heart's blithe tone?
The strength is gone, the step is slow,
And joy grows wearisome, and woe!
When age comes on!

From the Macon Telegraph.]

Applying Guano to Wheat Lands.

A Jones county correspondent asks: "Will you or some of your readers, in an early number of the Telegraph, give the mode of manuring wheat lands with guano?" Let our planting friends, who have had practical experience on the subject, send us their answers to the question. Awaiting these, we will give the plan we should adopt, in the absence of a seeder or driller, which we hope all our planters will provide themselves with at the earliest opportunity. With the driller, the seed in the ground (the later properly adulterated) are applied at the same time in the drill with much more efficacious and economical effect to the plant. But assuming that we have no driller or seeder, we should proceed as follows:

After breaking up the ground thoroughly to the depth of six to ten inches, we should lay it off in the usual fashion and scatter the seed with as much uniformity as possible, using say a bushel or a bushel and a half to the acre. Let the sower be followed at a short distance by the hand who applies the fertilizer. If it is guano, it should be well pulverized and thoroughly mixed with three times its quantity of pulverized gypsum or land plaster, if you have it. If not, mix with ashes or dry pulverized swamp muck, with salt, or other fertilizing ingredients at hand, which may reduce the strength of the guano.

When well scattered over the surface, harrow in at once with the seed, and if you will take the trouble to extemporize a light roller out of a pine log, and pass it over the land afterwards you will add much to the certainty of germination.

Good farmers tell us that the harrow passed over the crop in the early spring—[illegible] part of February or first [illegible] and followed with a top dressing [illegible] phosphate or any other good fer[illegible] produces a splendid effect. The [illegible] stirs the earth, tears up but very [illegible] the grain, and with the manure [illegible] crop a wonderful impetus and a [illegible] increased productive power.

[illegible] will do for our answer, and now let the farmers give theirs through the Telegraph. We shall be happy to get and to impart some information upon this interesting and important topic.

DRY GOODS.—The dry goods market for the past week has been languid, unsettled, and unsatisfactory.

Domestic cotton goods have been very quiet, and no material changes since last week are to be noted. The transactions in brown goods have been very limited, and prices remain steady. Bleached shirtings and sheeting are not usually in active demand at this season of the year, and they are less so than usual now; but prices are unchanged.

Prints have been reduced about half a cent a yard for Sprague and Dunnels; but new styles adapted to the season maintained full prices, though the demand is but moderate.

Woollens of all kinds are inactive, except for very choice styles of overcoatings and fancy cassimeres for city trade. The clothiers have not yet come into the market to make purchases for their next season's business.

The sales of blankets and flannels are very limited, and confined mostly to single packages to make up assortments.

Foreign fabrics are in very moderate demand, and importations during the past fortnight have very sensibly decreased. But there is a fair demand for choice styles of winter goods for the city trade, such as silks, delanes, merinos and millinery articles.

The auction rooms have been largely supplied; but the competition has not been lively, though the sales have been well attended.

The fall in gold has had an effect to unsettle prices and cause hesitation among buyers.—*N. Y. Independent.*

THE WORKING MAN.—He is the noblest man of whom our free country can boast; whether in the workshop or at the plow, you can find the same noble hearted, free and independent being. And if there is a man in society upon whom we look with pride and admiration, it is the independent, sober workingman. We care not whether he be farmer, mechanic or common laborer Whether his toils are endured in the workshop or the coal mine; whether his home is in the backwoods or in the neat cottage. What a happy picture he presents; what a reward for his labor, who, by his own unaided exertions, establishes for himself a respectable position in society; who, commencing in poverty, by his skill and assiduity, surmounts every obstacle, overcomes every prejudice, and finally succeeds in forming a character whose value is enhanced by those who come after him.

Such a man we prize as the noblest work of which human nature is capable—the highest production she can boast. And let it be borne in mind by the young working man just entering upon the stage of life—let it lie at the foundation and be the moving spring of his efforts—that this situation he must strain every nerve to attain. It can be attained by all. Untiring industry and virtuous ambition never fail to find their reward. They never yet were exerted in vain, and never will while honesty and justice find a home in the human breast. It was remarked by an eloquent writer, that the working man who had no inheritance but virtue is the sole king, among men, and the only man among kings.

"He envies not the son of ease,
Nor lord in princely hall;
But bows before the wise decree,
In kindness meant for all."

THE CONSTITUTION

Daily Circulation Over 3,000.

Semi-Weekly Circulation 2,000.

" SIX MONTHS 5 00
" ONE MONTH 1 00

SEMI-WEEKLY, PER ANNUM $3 00
" SIX MONTHS 1 50
" THREE MONTHS 1 00

THE CONSTITUTION is intensely DEMOCRATIC:

and neither pains, enterprise, nor money will be spared, in the efforts of the Proprietors, to make it a leading organ, and one of the first papers in the South.

THE CONSTITUTION has scarcely laid aside its baptismal robes, and yet its circulation is equal to, if not greater, than any political paper in Georgia. This unparalleled success is mainly attributable to the industry and enterprise which have characterized its management.

As its name imports, it is battling for the Constitution and the liberties of the people; and the patronage it has received, assures the Proprietors that their labors are appreciated, and their policy endorsed.

As an advertising medium, THE CONSTITUTION is, perhaps, superior to any paper published in the State: its circulation being confined to no particular locality, but extending from one end of the State to the other, and from the Savannah to the Chattahoochee.

The Proprietors intend no relaxation of their energy, but will add new features of interest and more vigorous enterprise as patronage increases; and they hope in future, as in the past, to merit the good will and plaudits of their numerous readers.

The excellent remedies of O. S. Prophitt, M. D., need no recommendation. Their well known power in removing the diseases peculiar to our Southern Climate, having already established for them an enviable reputation in Georgia and the adjoining States. As the majority of persons living in the South are pre-disposed to disease of the Liver, it is granted by all intelligent physicians that most of the pains and aches of our people are due to organic or functional derangement of that important organ. Prophitt's Anti-Bilious Pills and Liver Medicine strike directly at the root of the evil. They cure the Liver which, in nine cases out of ten, is at the bottom of the Coughs, Dyspepsia, Colic, Sick Headache, Rheumatism, Constipation, Menstrual Obstructions, etc., so common among our people, Earache, Toothache, Acute Rheumatism, Neuralgia, and bodily pains of every kind, flee before PROPHITT'S PAIN KILL IT like chaff before the wind.

NEWSPAPER FOR SALE!

THE ALBANY

TRI-WEEKLY NEWS

IS OFFERED FOR SALE!

FINDING IT IMPOSSIBLE TO RUN BOTH THE CONSTITUTION and the NEWS, without fatal neglect to one or the other, I propose to sell the latter.

The NEWS is in a flourishing condition, having a liberal Circulation, and as much Advertising Patronage as it can accommodate. It has yielded handsome profits since I purchased it in October last; and in practical hands, with vigor in its editorial management, can be made the best paying paper in Georgia. There is a well appointed

Job Office Attached,

And the Job Work of the City will run the establishment if rightly managed.

There are two PRESSES, one of Hoe's Drum Cylinder, and one Washington Hand Press in good order, and material enough to run a Daily and Weekly. I will sell on liberal terms if application is made within Thirty Days.

1868. DRY GOODS. 1868.

Fall and Winter Dry Goods.

JOHN M. GANNON,

(Corner WHITEHALL and HUNTER Streets,)

IS just in receipt of the following splendid line of Goods, which he has carefully selected, and will dispose of at prices that cannot fail to give satisfaction:

DRESS GOODS OF EVERY DESCRIPTION,

A great variety of Cloaks and Shawls; a splendid line of Blankets and Flannels; a full stock of Hosiery, Handkerchiefs, Embroideries, Breakfast Shawls, Nubias, Scarfs, Ladies' Under Vests, Gloves, Hoops and Balmoral skirts, Irish Linens, Birds' Eye Diapers, Table Linen, Scotch Diaper, Crash, Brood Cloths, Cassimeres, English Tweeds, Satinets, Kentucky and North Carolina Jeans, Prints, Sheetings, Shirtings, Domins, Stripes, Tickings, Osnaburgs, Linseys, Drills, Checks and everything kept in a first class Dry Goods store.

ONE PRICE ONLY.

It affords me pleasure to be able to state that this system has been a complete success and gives general satisfaction to my customers. For the benefit of those who have not been in the habit of doing business with me, I state that there is only one price for every article sold in my store, so that there is no danger of any person being overcharged for goods under any circumstances—in other words—a child can purchase goods in my store as cheap as the closest judge. I wish it distinctly understood that if any goods purchased in my establishment fail to come up to representation, they can be returned and the money will be refunded.

All consumers of dry goods are invited to call and examine my stock before purchasing elsewhere.
